### Summary

---

Results-driven software engineer with 5+ years of experience in JavaScript, Angular2+, and front-end development. Proven track record of building efficient, scalable, and reusable components. Skilled in collaborating with cross-functional teams, identifying and resolving performance issues, and developing high-quality code.

### Education

---

**UNIVERSITY OF ARIZONA**, Tucson, Arizona

M.S., Computer Science, 2012

B.S.B.A., Management Information Systems, 2011

### Technical Skills

---

**Programming Languages:** JavaScript, TypeScript

**Frameworks:** Angular2+, ReactJS, Vue.js, ExpressJS, NodeJS

**State Management:** Redux, NgRx

**Databases:** MongoDB, SQL

**Build/Deploy:** Docker, CircleCI, Heroku

**Testing:** Unit testing, Integration testing

**Other:** HTML/CSS, RxJS, Socket.io

### Experience

---

**WALMART, INC.**, Bentonville, Arkansas

Programmer Analyst, Call Center Engineering Team, 2011-2016

- Collaborated with designers, engineers, and product to develop features for a benefits hotline app serving 1.4 million employees.
- Architected efficient and reusable front-end code for a financial services hotline app for 8 countries in Central and South America.
- Optimized manual application tuning process with Java, making it 20x faster.
- Built and maintained unit and integration tests for various projects.
- Identified and resolved performance and scalability issues in multiple applications.

### Projects

---

#### PicoShell

Software Engineer

- Built a collaborative coding platform with a Linux terminal, code editor, file browser, chat window, and video collection.
- Connected users using Socket.io to chat and see immediate changes to collaborators' code editor and terminal.
- Used Docker to emulate a UNIX environment in the browser with drag and drop file upload and file download.

#### TagMe

Front-End Engineer/DevOps

- Implemented search, geo-tags, and content sort using ExponentJS to improve UX.
- Expanded and refined functionality of React Native codebase.
- Configured continuous integration using CircleCI and Heroku to streamline build, test, and deployment.

## **Skills**

---

**Programming Languages:** JavaScript, TypeScript

**Frameworks:** Angular2+, ReactJS, Vue.js, ExpressJS, NodeJS

**State Management:** Redux, NgRx

**Databases:** MongoDB, SQL

**Build/Deploy:** Docker, CircleCI, Heroku

**Testing:** Unit testing, Integration testing

**Other:** HTML/CSS, RxJS, Socket.io

## **Awards and Certifications**

---

**Employee of the Month,** Walmart, Inc., December 2012
